About us

We are a Certified Aboriginal Business and leading company in providing service to Ontario's nuclear and clean energy sector

Established in 2021, Voyageur brings together extensive industry knowledge and a strong desire for community engagement in a combination unmatched in the industry today.

We strive to build long-term partnerships with our clients; learning about organizational needs, projects and growth initiatives. Over time through our activities, we develop a customized staffing and contracting strategy tailored specifically to an organization's needs. This allows us to achieve rapid results to the requirements of an organization unmatched in the industry today.

Our community approach and strong networks provide our clients with unique access to industry expertise and talent acquisition opportunities. You are able to select from a pool of resources that has spent decades providing industry-leading specialty project services to a variety of industries.
